

POLITICA DE UTILIZARE COOKIE-URI

Informatiile prezentate in continuare au scopul de a aduce la cunostinta utilizatorului mai multe detalii despre plasarea, utilizarea si administrarea „cookie-urilor” folosite de site-ul www.isor.ro

Va rugam sa cititi cu atentie informatiile care urmeaza:

- Acest website foloseste „ cookie-uri” pentru a furniza vizitatorilor o experienta mult mai buna de navigare si servicii adaptate nevoilor si interesului fiecaruia.
- Aceste „cookie-uri” pot proveni de la urmatorii terti: Adwords, Google Analytics, Google.com, Facebook, Youtube etc.
- Cookie-urile au rolul de a facilita accesul si livrarea serviciilor folosite de utilizator de internet, precum personalizarea anumitor setari (limba, tara)
- „Cookie-urile”, pe baza informatiilor pe care le aduna despre utilizatori, ii ajuta pe detinatorii de site-uri sa isi eficientizeze produsul si serviciile astfel incat acestea sa fie cat mai usor accesat de catre utilizatori, de asemenea cresc gradul de eficienta a publicitatii online si nu in ultimul rand pot permite aplicatiilor multimedia sau de alt tip de pe site-uri sa fie

COOKIES POLICY

The information presented below aims to give the user more details about the placement, use and management of the cookies used by the website www.isor.ro

Please read the following information carefully:

- This website uses cookies to provide visitors with a much better navigation experience and services tailored to everyone’s needs and interest.
- These cookies may come from the following third parties: Adwords, Google Analytics, Google.com, Facebook, Youtube, etc.
- The cookies have the role of facilitating the access and the delivery of the services used by the internet user, as well as the customization of certain settings (language, country)
- The cookies, based on the information gathered about the users, help the website owners to optimize their product and services so that these should be accessed by the users as easier as possible, they also increase the degree of efficiency of online advertising, and last, but not least, they can allow multimedia applications or other kind of applications on the websites to be

include într-un anumit site pentru a face navigarea mai utilă.

Această politică se referă la cookie-urile și pagina web operată de International School of Oradea cu sediul în Oradea, str. Armatei Romane nr. 1F.

1. Ce sunt Cookie-urile?

„Cookie”-ul („browser cookie” sau „HTTP cookie”) este un fișier de mici dimensiuni, format din litere și numere, care va fi stocat pe computerul, terminalul mobil sau alte echipamente ale unui utilizator de pe care se accesează internetul.

„Cookie”-ul este instalat prin solicitarea transmisă de către web-server unui browser (ex: Internet Explorer, Chrome) și este complet „pasiv” (nu conține programe software, virusi sau spyware și nu poate accesa informațiile de pe hard driver-ul utilizatorului).

2. Rolul fișierelor de tip Cookie

Aceste fișiere permit recunoașterea terminalului utilizatorului și prezentarea conținutului într-un mod relevant, adaptat preferințelor utilizatorului.

„Cookie”-urile sunt utilizate în pregătirea unor statistici anonime care ne ajută să înțelegem cum un utilizator beneficiază de paginile noastre web, permitându-ne îmbunătățirea structurii și conținutului lor,

included in a certain website in order to make the navigation more useful.

This policy refers to the cookies and the web page operated by the International School of Oradea headquartered in Oradea, Armatei Romane St., no. 1F.

1. What are cookies?

A “cookie” (“browser cookie” or “HTTP cookie”) is a small text file, formed of letters and numbers, which will be stored on the computer, mobile terminal or other equipment of a user from which the Internet is accessed.

Cookies are installed through the request sent by the web server to a browser (i.e.: Internet Explorer, Chrome) and is completely „passive” (it does not contain software programmes, viruses or spyware and it cannot access the information from the user’s hard drive).

2. The role of Cookie files

These files allow the recognition of the user’s terminal and the presentation of content in a relevant manner, adapted to the user’s preferences.

“Cookies” are used for the preparation of anonymous statistics which help us understand how a user benefits from our web pages, allowing us to improve their structure and content, excluding the user’s personal identification.

excluzand identificarea personala a utilizatorului.

3. Tipuri de cookie-uri folosite de site-ul www.isor.ro

Pe www.isor.ro se folosesc „Cookie”-uri per sesiune :

- Datele pot fi citite si de la nivel de server
- Datele au un timp de expirare (dupa acest timp ele vor fi sterse automat)

4. Cum sunt folosite cookie-urile pe www.isor.ro

Vizita dumneavoastra pe www.isor.ro poate instala fisiere de tip cookie pentru a:

- Analiza performanta site-ului
- Realiza analize privind profilul vizitatorilor si de inregistrare
- Realiza analize de localizare (geotargetting)

5. Cookie-urile inregistreaza sau/si contin date personale?

„Cookie”-urile in sine nu solicita informatii cu caracter personal pentru a putea fi utilizate si, in cele mai multe cazuri, nu identifica personal utilizatorii de internet.

Datele personale colectate prin utilizarea „Cookie-urilor pot fi colectate doar pentru a facilita anumite functionalitati pentru

3. Types of cookies used by the website www.isor.ro

The website www.isor.ro uses session cookies:

- Data may also be read from a server level
- Data have an expiry time (after this time they will be automatically deleted)

4. How cookies are used on the [website www.isor.ro](http://www.isor.ro)

Your visit to www.isor.ro may install cookie files in order to:

- Analyze the website performance
- Make analyses related to the visitors’ profile and registration
- Make location analyses (geotargetting)

5. Do cookies register and/or contain personal data?

The cookies themselves do not require personal information in order to be used and, in most cases, do not identify an internet users personally.

Personal data collected by using cookies may be collected only to facilitate certain functionalities for the user. Such data are

utilizator. Aceste date sunt criptate astfel incat persoanele neautorizate nu pot avea acces la ele.

6. Stergerea cookie-urilor

Aplicatiile folosite pentru accesarea paginilor web (browser, de exemplu) salveaza „Cookie”-urile pe terminalul utilizatorilor de internet in mod implicit.

Totusi setarile pot fi schimbate de dvs astfel incat instalarea automata a „cookie”-urilor sa fie blocata de browser-ul web.

Va informam ca limitarea folosirii „Cookie”-urilor poate afecta anumite functionalitati ale modului in care sunt afisate paginile website-ului www.isor.ro.

7. De ce sunt cookie-urile importante pentru internet?

Cookie-urile sunt importante pentru functionarea eficienta a website-urilor, in interesul utilizatorului, deoarece contribuie la crearea unei experiente de navigare web simpla si personalizata in functie de interesele, preferintele si comportamentul fiecarui utilizator.

Blocarea sau dezactivarea Cookie-urilor poate face unele site-uri imposibil de folosit sau pot limita semnificativ experienta dvs pe web.

Blocarea sau dezactivarea fisierelor Cookie nu inseamna ca nu va vor mai fi livrate mesaje publicitare, ci ca paginile web pe care va aflati nu va

encrypted so that unauthorized persons cannot have access to them.

6. Deletion of cookies

The applications used for accessing a web page (browser, for example) save cookies on the terminal of Internet users by default.

However, the settings may be changed by you so that the automatic installation of cookies should be blocked by the web browser.

We inform you that the limitation of the use of cookies may affect certain functionalities of the way in which the www.isor.ro website pages are displayed.

7. Why are cookies important for the Internet?

Cookies are important for the efficient functioning of websites, in the interest of the user, because they contribute to the creation of a simple and customized web navigation experience according to each user’s interests, preferences and behaviour.

Blocking or disabling the cookies can make certain websites impossible to use or may significantly limit your experience on the web.

Blocking or disabling the cookie files does not mean that advertising messages will no longer be delivered to you, but that the web

<p>vor mai oferi o experienta adaptata tipului dumneavoastra de comportament si preferintelor dumneavoastra.</p> <p>Fisierele de tip Cookie sunt importante pentru:</p> <ul style="list-style-type: none"> ● Continut si servicii adaptate preferintelor dumneavoastra – categorii de produse si servicii ● Oferte adaptate intereselor dumneavoastra – retinerea parolelor – in cazul in care optati pentru aceasta functionalitate ● Retinerea filtrelor de protectie a copiilor privind continutul web (optiuni family mode, functii de safe search) ● Limitarea frecventei de livrare a mesajelor publicitare – limitarea numarului de afisari a unei reclame pentru un anumit utilizator pe un site. ● Furnizarea de publicitate relevanta in functie de utilizator ● Masurarea, optimizarea si inregistrarea de date legate de performanta site-ului – statistici legate de trafic, continut vizualizat. Aceste informatii sunt importante 	<p>pages on which you are will no longer offer you an experience adapted to your type of behaviour and to your preferences.</p> <p>Cookie files are important for:</p> <ul style="list-style-type: none"> ● Content and services adapted to your preferences - categories of products and services ● Offers adapted to your interests – password retention – in case you opt for this functionality ● Retention of children’ protection filters related to web content (family mode options, safe search functions) ● Limitation of the frequency of delivery of advertising messages – limitation of the number of displays of an advertisement for a certain user on a website. ● Provision of relevant advertising depending on the user ● Measurement, optimization and registration of data related to website performance – traffic related
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<p>pentru imbunatatirea experientei web a utilizatorilor.</p> <p>8. Securitate si aspecte legate de confidentialitatea utilizatorilor</p> <p>Cookie-urile NU sunt virusi si nu colecteaza date cu caracter personal.</p> <p>Totusi, cookie-urile pot fi utilizate in detrimentul utilizatorilor, de programele de tip Spyware.</p> <p>Deoarece stocheaza informatii despre preferintele si istoricul de navigare al utilizatorilor, cookie-urile pot fi folosite ca o forma de Spyware. Aplicatiile anti – spyware au rolul de a marca cookie-urile pentru a fi sterse in cadrul procedurilor de scanare anti-virus/anti-spyware.</p> <p>Browserserele au integrate setari de confidentialitate care ofera diferite niveluri de acceptare a cookie-urilor – precum perioada de valabilitate si stergere automata la incheierea unei sesiuni web.</p> <p>9. Alte aspecte de securitate legate de cookie-uri:</p> <p>Deoarece toti utilizatorii de internet au dreptul la protectia identitatii online, este indicat sa fiti informat(a) in legatura cu posibilele riscuri de securitate. Avand in vedere ca prin intermediul acestor fisiere se face schimb de informatii constant intre browser si site-ul pe care il vizitati, informatiile transmise prin cookie-uri pot fi interceptate de persoane sau programe neautorizate. De exemplu,</p>	<p>statistics, viewed content. This information is important for improving the users’ web experience.</p> <p>8. Security and aspects related to users’ confidentiality</p> <p>Cookies are NOT viruses and they do not collect personal data.</p> <p>However, cookies may be used to the detriment of users by Spyware programmes.</p> <p>As they store information about the users’ preferences and navigation history, cookies may be used as a form of Spyware. Anti – spyware applications have the role of marking cookies in order to be deleted within the anti-virus/anti-spyware scanning procedures.</p> <p>The browsers have integrated privacy settings and they offer different levels of acceptance of cookies – such as their validity period and automatic deletion upon the closure of a web session.</p> <p>9. Other security aspects related to cookies:</p> <p>As all Internet users have the right to online identity protection, it is advisable that you should be informed about the potential security risks. Given that a constant exchange of information between the browser and the website you visit is made by means of these files,</p>
-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

acest lucru este posibil in situatia in care browser-ul se conecteaza la server folosind o retea necriptata/nesecurizata – cum este cazul anumitor retele Wi-Fi.

Alte atacuri bazate pe cookie-uri pot fi posibile din cauza unor setari gresite ale acestor fisiere pe servere. Daca un website nu solicita browser-ului sa foloseasca doar canale criptate, atacatorii pot folosi aceasta vulnerabilitate pentru a primi acces la informatiile transmise prin cookie-uri. Din aceste motive este esential sa acordati o atentie sporita setarilor prin care va protejati informatiile personale disponibile online.

10. Sfaturi pentru o navigare web sigura, bazata pe Cookies

Datorita flexibilitatii lor si faptului ca majoritatea dintre cele mai vizitate site-uri folosesc cookie-uri, acestea sunt aproape inevitabile. Dezactivarea cookie-urilor nu va va permite accesul pe site-uri precum Youtube, Gmail, Yahoo etc.

De aceea , va oferim cateva sfaturi care sa va asigure o navigare web sigura, prin intermediul cookie-urilor:

- Personalizati setarile browser-ului in ceea ce priveste Cookie-urile
- Daca sunteti unicul utilizator al terminalului, puteti seta termene de expirare a cookie-urilor prelungite
- In cazul in care sunteti unicul utilizator al terminalului, luati in considerare stergerea datelor individuale de

the information sent through cookies may be intercepted by unauthorized persons or programmes. For example, this is possible when the browser connects to the server using an unencrypted/unsecured network - such is the case of certain Wi-Fi networks.

Other cookie-based attacks may be possible due to the wrong settings of these files on the servers. If a website does not require the browser to only use encrypted channels, attackers may use this vulnerability to gain access to the information sent through cookies. Therefore it is essential that you pay increased attention to the settings by which you protect the personal information available online.

10. Tips for a safe web navigation based on Cookies

Due to their flexibility and to the fact that the majority of the most visited websites use cookies, these are almost inevitable. Disabling cookies will not allow you the access to websites like Youtube, Gmail, Yahoo, etc.

That is why we offer you some tips which ensure you a safe web navigation by means of cookies:

- Customize the browser setting related to cookies

<p>navigare de fiecare data cand inchideti browser-ul.</p> <ul style="list-style-type: none"> ● Instalati aplicatii antispyware si faceti-le constant update. ● Asigurati-va ca browser-ul folosit este mereu updatat, deoarece multe dintre atacurile bazate pe cookies sunt posibile din cauza punctelor slabe ale versiunilor vechi ale browserelor. <p>Toate browserele moderne va ofera posibilitatea de a va seta personalizat modul de actiune a cookie-urilor. Aceste setari se gasesc de regula in „optiuni” sau in meniul de „preferinte” al browserului dumneavoastra.</p> <p>11. Link-uri utile</p> <p>Pentru a afla mai multe informatii despre cookie-uri si cum functioneaza acestea, accesati resursele de mai jos:</p> <ul style="list-style-type: none"> ● Microsoft Cookies guide ● All about cookies ● http://youronlinechoices.com/ro/ ● https://cookiechoices.org/ 	<ul style="list-style-type: none"> ● If you are the only user of the terminal, you may set extended cookie expiry deadlines ● If you are the only user of the terminal, consider the deletion of individual navigation data each time you close the browser. ● Install anti-spyware applications and update constantly. ● Make sure that the browser used is always updated because many cookie-based attacks are possible due to the weaknesses of older versions of the browsers. <p>All modern browsers offer you the possibility to set the cookie action method in a customized manner. These settings can be usually found in “options” or in the “preferences” menu of your browser.</p> <p>11.
